CAREER EXPERIENCE

BOSTON MEDICAL CENTER. Boston, MA

09/11 – 05/14

Patient Navigator – Diabetes Clinic

- Helped coordinate joint research study of MIT and BMC Outpatient Diabetes Team.
- Identified patients with high blood-glucose levels and repeated missed appointments.
- Identified barriers that prevent patients from receiving optimum Diabetes care management.
- Worked with identified patients for a nine-month period to overcome barriers and achieve optimal diabetes management.
- Utilized patient feedback to improve efficacy of patient navigator program.

BOSTON MEDICAL CENTER. Boston, MA

03/11 – 09/11

Refugee Patient Navigator – Boston Center for Refugee Health and Human Rights

- Interviewed and performed mental health scales on refugee intakes.
- Worked to improve refugee access to healthcare and other patient services
- Assisted refugees in improving healthcare literacy.
- Accompanied patients to Patient Financial Services as an advocate, especially in cases with legal status questions or language barriers.
- Coordinated patient care in Primary Care and Forensics clinics.
- Designed re-certification manuals for refugees with animal care and dentistry backgrounds.

FINCA DEL NINO. Trujillo, Honduras

Orphanage and School for grades K-9; performed a variety of roles as noted below

Healthcare Volunteer

10/08 – 12/10

- Aided staff in medical clinic.
- Accompanied staff on patient visits to surrounding communities.
- Transported patients with serious injuries to nearby hospital.

Volunteer Teacher – Vicente Pescatore Institute

- Taught Science curriculum for 7th (Earth Science), 8th (Biology) and 9th (Chemistry and Physics) grades as well as English, Economics, Debate and Physical Education in Spanish for at-risk students.
- Developed and implemented curriculum to teach and assess knowledge students have attained in areas of Science, English, Economics, Debate and Physical Education.
- Covered classes for other teachers ranging from grades 1 through 9; including Mathematics, Literature, Spanish and Social Studies.
- Developed and facilitated an academic/creative camp for students aged 4 to 12.

Co-Director of PAVI (Bridge to an Independent Life) Program

- Developed and implemented work program tailored to specific needs of adolescents preparing them for a career later in life.
- Scheduled weekly meetings with each adolescent and a representative from their work to assess effectiveness of program and ways to improve.
- Designed flexible student schedules to incorporate work within the educational program, reinforcing the transition to a professional career.
- Oversaw adolescents during work hours in areas of: agriculture, maintenance and tutoring hours.

Director of Security

- Responsible for the safety of children, Franciscan Sisters, volunteers and employees of an organization located in a high risk (violence and poverty) area.
- Worked with community leaders to foster a positive relationship between the organization and surrounding neighborhoods.
- Designed a schedule for and met with security guards to discuss methods to improve safety and satisfaction as employees.
- Met with the Director of the organization and local authorities to discuss methods of improving security.

VILLANOVA UNIVERSITY. Villanova, PA

08/07 – 08/08

Research Assistant – Lab of Dr. Vikram Iyengar

- Maintained a colony of *Utetheisa ornatix* (Rattlebox Moth) for experiments designed to study sexual selection.
- Recorded data observing the overall condition of the colony over time.
- Experimented with different methods of cultivating the main source of nutrition (*Crotalaria*) for the colony.
- Assisted in research collecting hair-like fibers of males and studying the relationship between these

fibers and mating success.
