### **CLINICAL ACCOMPLISHMENTS**

1. Initiated and executed Epic clinical template changes that:
  - a. Implement validated quality of life questionnaires that assess the severity of pelvic floor disorder symptoms and facilitate more robust retrospective clinical studies
  - b. Ensure compliance with documentation and billing guidelines
2. Initiated and executed Epic OrderSets to streamline both inpatient and outpatient surgical and ambulatory orders
3. Patient Education: an initiative peri-operative educational program for patients planning surgery for pelvic floor disorders
4. Assessed deficits in postpartum bladder management protocol and worked with a multidisciplinary team to write and implement a care algorithm for postpartum voiding dysfunction
