**Medical Student Activities**

Spring '02	Evidence-Based Medicine, small group instructor, University of Florida
Spring '02	Essentials of Patient Care II, small group instructor on physical diagnosis to 1 <sup>st</sup> year medical students, University of Florida
Spring '02	Essentials of Patient Care IV, small group instructor on physical diagnosis to 2 <sup>nd</sup> year medical students, University of Florida
Fall '01-Spring '02	Keeping Families Healthy, small group instructor. This a unique opportunity to expose students from the Colleges of Medicine, Pharmacy, and Nursing to the concepts of teamwork, preventive medicine, and community service based on interactions with a volunteer family over multiple home visits. University of Florida
7/02-5/05	BCC 6110 (Internal Medicine Clerkship), Ambulatory Lectures on Hypertension and Hyperlipidemia, 4 hours each clerkship group
8/02-10/04	Preceptor, MS IV Video Taped History and Physical Program Hour long review with 20-30 students each year
9/02-5/05	BCC 6110 (Internal Medicine Clerkship), ECG lecture series, 6 hours of didactic lectures each clerkship group. Recently designed a new ECG clinical competency examination for students emphasizing development of clinical skills in four essential areas (ECG changes in structural heart disease, dysrhythmia recognition, conduction abnormalities, and ST segment interpretation).
8/02-5/05	BCC 6110 (Internal Medicine Clerkship), weekly section reviews in Cardiology and Nephrology, 2 hours each clerkship cycle. Have also assisted with Rheumatology, Hematology, Infectious Disease, and Endocrinology section reviews, 1-2 hours each clerkship cycle.
10/02-12/02	BMS 6832 (Clinical Problem Solving). Reviewed weekly cases and developed over 50 exam questions.
11/02-present	BMS 6042 (Medical Sciences 6 Integrated Curriculum in the 2 <sup>nd</sup> year). ECG lecture series consisting of five didactic lectures with 1-2 question & answer / review session. Developed over 40 ECG questions.
4/03-4/05	BMS 6830 (Physical Diagnosis), small group instructor, cardiology for both 1 <sup>st</sup> and 2 <sup>nd</sup> year medical students

10/03-2/05	BMS 8334 (Evidence Based Medicine), small group instructor. Five small group sessions for a total of 7 hours. Reviewed student write-ups for each session and submitted a formal small group grade on the 8-12 members of my group.
6/04-5/05	Instructor, Patient Simulation – Harvey, Internal Medicine Clerkship
11/04	BMS 6300 (Medical Microbiology) Sepsis and septic shock clinical correlation lecture.
2/05-present	BCC 8190 (Critical Care Clerkship) ECG Review Session.
6/05-5/13	BCC 7144 (Medicine-Pediatrics Inpatient Clerkship) Quiz reviewer and internal medicine faculty for the combined integrated quiz review/ and PBL conference on nephrology and endocrinology. I give 8 lectures to 40 students over the 12-week integrated clerkship. Each student must take a competency exam on 12 standard ECG's at the completion of the lecture series.
6/05-2014	BCC 7184 (Primary Care Clerkship) I give a small group talk on valvular heart disease using Harvey and remote headphones to make teaching points on physical exam findings.
7/06-present	MEL 9940 (Honors Acting Internship in Internal Medicine). Course director for this 4-week elective experience. Developed the Blackboard website and curriculum for the rotation. Gave orientation and ran four 1-2 hour didactic discussions on clinical cases over the 4 week course. Each student was required to submit an abstract to a regional or national meeting or become more involved with the American College of Physicians.
6/07- present	BCC 6173 (Introduction to the Clerkships). I give the hour long lecture on Medical Student Abuse during the course. I use videotaped scenarios to educate the students on this subject. I provide them with information regarding where and who to report this information should an event occur during their clinical rotations. I also serve as a lecturer on inpatient documentation.
11/09	BMS 5015 (Clinical Diagnosis and Reasoning). Small group leader for acid-base clinical vignettes and sodium/water clinical vignettes.
2/11-present	BMS 6633 Cardiovascular and Pulmonary Systems (year 1). Created an introductory lecture on the clinical ECG and a 2 <sup>nd</sup>

lecture on cardiac auscultation using Harvey. Designed 8 questions for the block exam.

5/13-present

BCC 7110 – Adult Inpatient Medicine. Faculty for the quiz review/ and PBL conference on nephrology, gastroenterology, cardiology, and endocrinology. I give the ECG lecture series of 8 lectures to 20 students over the 8-week clerkship. Each student must take a competency exam on 12 standard ECG's at the completion of the lecture series.
